ABOUT

Nordic Pharmacovigilance Day 2025

12th edition | Copenhagen, Denmark

Advancing Pharmacovigilance Together

Pharmacovigilance is evolving rapidly, shaped by technological advancements, regulatory expectations, and real-world challenges.

On **11 November 2025**, the 12th edition of Nordic Pharmacovigilance Day will bring together experts and professionals in Copenhagen to exchange insights, explore innovations, and strengthen collaboration in drug safety.

This year's agenda will focus on key topics driving the future of pharmacovigilance, including:
- **Artificial Intelligence** and its role in optimizing pharmacovigilance processes
- **Audit and inspection** readiness and compliance strategies
- **Signal detection** methods for ensuring patient safety
- **Risk minimization measures** and their real-world impact
- **Quality in pharmacovigilance** and maintaining high regulatory standards
- **Pharmacovigilance outsourcing learnings** and best practices

Through expert-led discussions and networking opportunities, this event will offer valuable perspectives for both experienced professionals and those new to the field. Don't miss this opportunity to gain practical knowledge, share experiences, and contribute to the future of

pharmacovigilance.

We look forward to welcoming you to an engaging and insightful conference in Copenhagen!
