

Medical Writing for Medical Devices

We help our clients in their journey throughout the entire project!

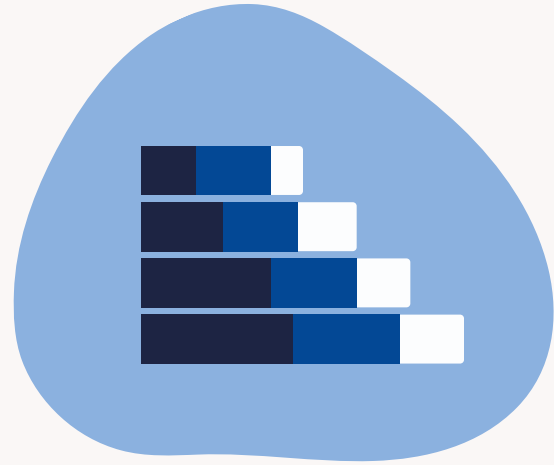

33.4 million admissions to hospital in the US in 2021

The growing prevalence of chronic disease and the increasing emphasis on early diagnosis and treatment lead to many patients undergoing diagnostic and surgical procedures. (Fortune Business insights)

Not all MDR certificates have been issued yet!

There are > 500,000 devices estimated to be covered by (AI)MDD certificates. (MedTechEurope 2022)

Progress to certification is low

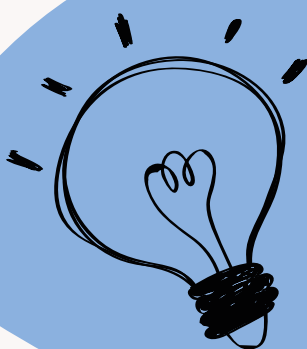

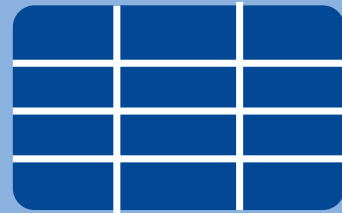

And SMEs are more impacted by the MDR than larger companies. (MedTechEurope 2022)

How can we help?

A dedicated team of Medical Writers with extensive experience in MDR documentation

Clinical evaluation

We can help you prepare all your clinical evaluation documents: CEP, CER, SSCP, PMCF & PSUR...

Publication intelligence

We can produce literature intelligence searches, design a publication planning for you as well as support you in writing your manuscripts
